Manufacturers & Exporters of :
INDUSTRIAL AND ENGINEERING FASTENERS

High Tensile Fasteners | Special Fasteners As per Drawings | All Kinds of Nuts, Bolts and Washers

Director's Desk

The Managing Director Mr. Naresh Kumar himself is having 25 Year's practical experience in this field and resulted the international export quality comes out as a final product from our company to satisfy the customers years and years.

I feel Proud to say that " NGA " has always given more than the expected results and to support the increasing customers demand. Latest technology is being regularly upgraded through R & D department

THE FASTENERS EXPERTS

Our Mission:

NGA Fasteners is committed to providing its customers products with a very competitive relation between price/quality, guaranteeing high levels of customer service, by means of a group of trained and motivated employees who assure the satisfaction of our clients. To make you count on us.

Journey To Excellence

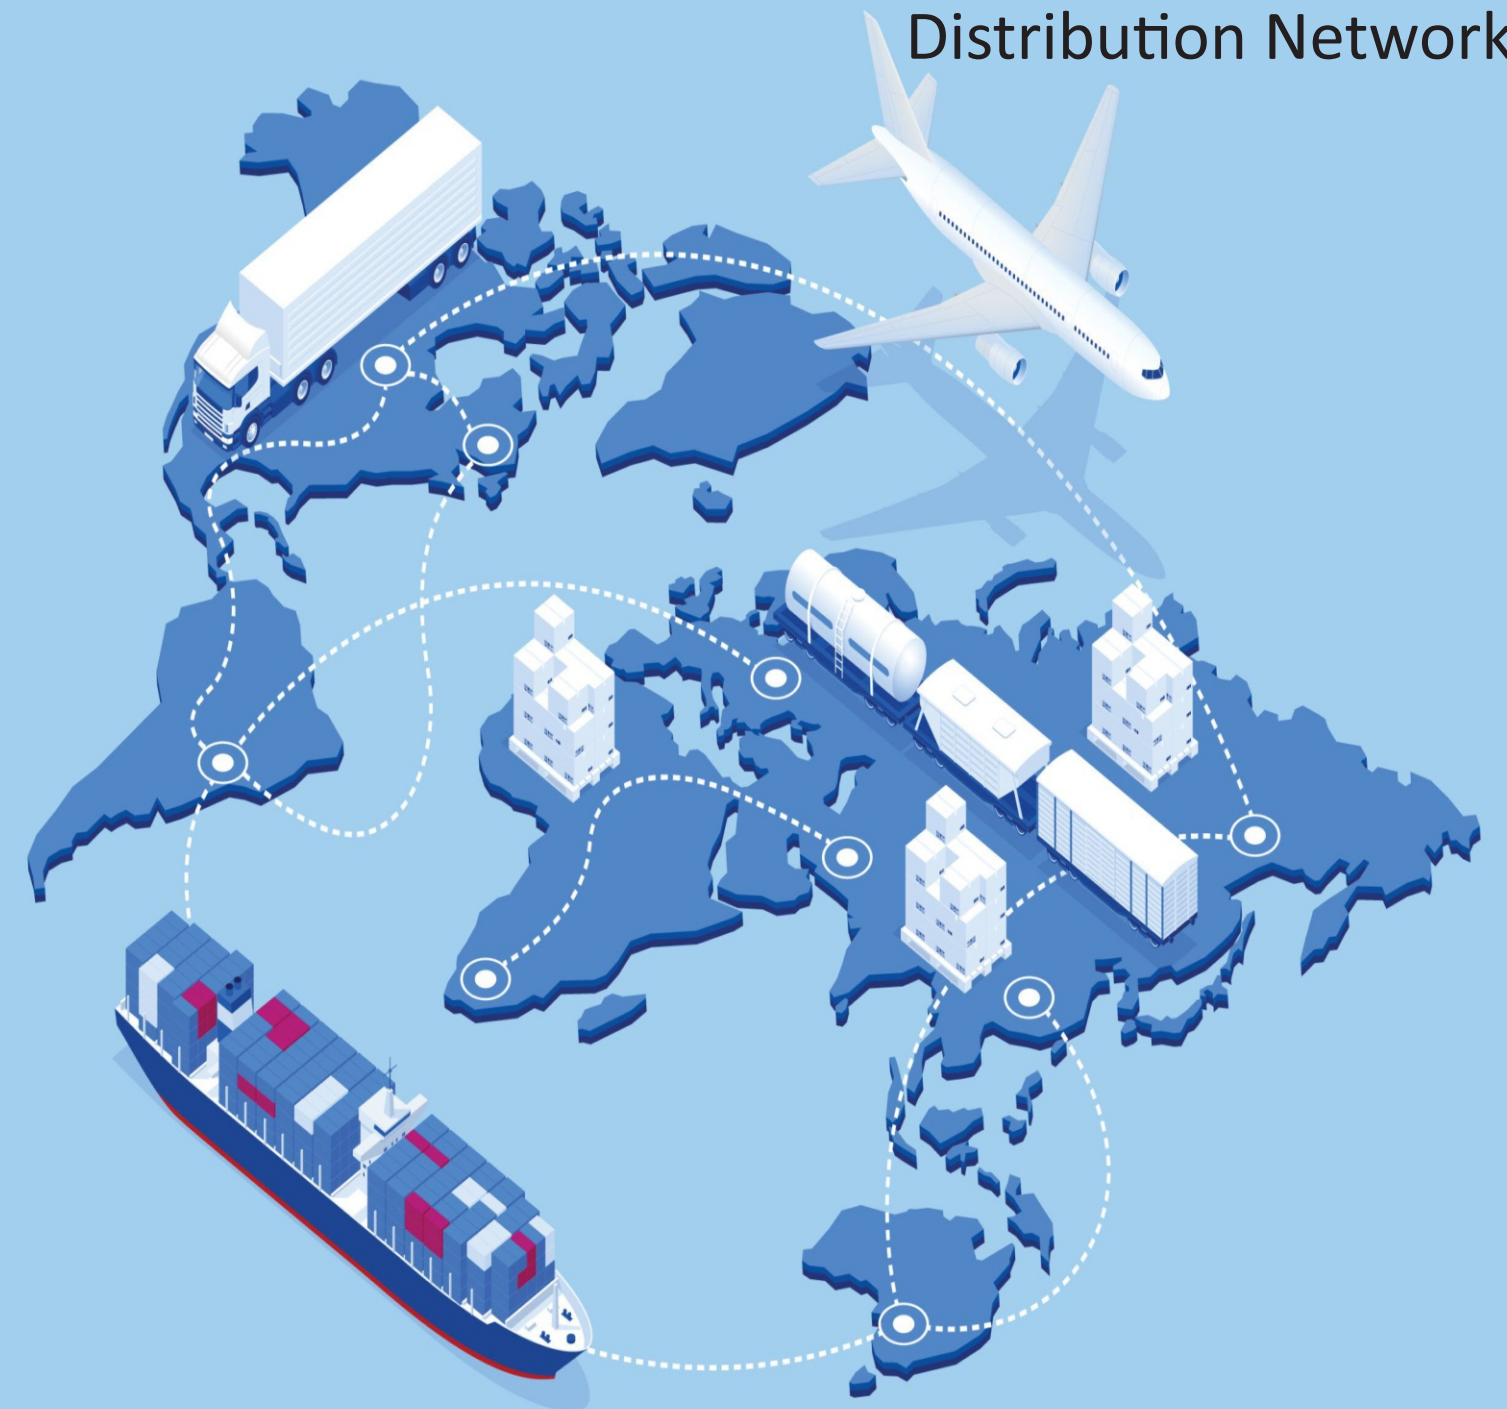

Excellence is earned through hard work and dedication to manufacture world class quality product. At **NGA** , we live by these words everyday.

Since 2012, we have been committed to manufacture the best Industrial and engineering Fasteners. This ongoing commitment doesn't stop with the manufacturing process itself. We strongly believe that the real attributes of a great company are to treat every customer with utmost respect and satisfy their every need the first time and every time. Our Customers appreciate this dedication to Total Customer Satisfaction and have rewarded us with Strong term Relationships.

To build strong relationships, one has to firstly gain respect in the eyes of its customers. Most of the respect we have attained comes from our long term commitment to quality.

This dedication has allowed us to deliver the height quality products on a timely basis and at a fair price. This journey doesn't end here, we will continue to search for a new ways to improve, to deliver higher quality products to our reputed valued customers and most importantly, maintain the highest ethics in our pursuit of Excellence.

Distribution Network

N.B. In case any technical information about the products is required you may contact our head office at Ludhiana . However you may contact our local representative with regard to your queries relating to price , availability of material , delivery schedules etc.

Quality Policy

We are committed for Sustained Growth & Satisfaction of Customers through achieving Innovative Business, Technological, Management Practice & Improving their effectiveness continually

Philosophy

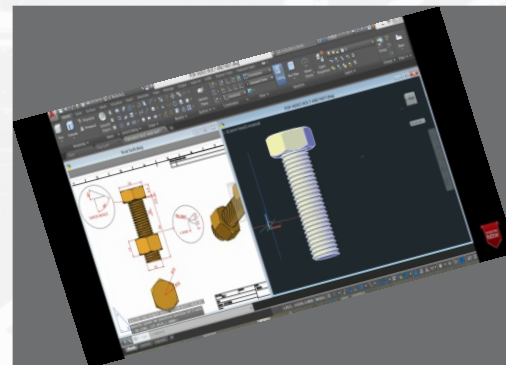

- Understanding & Serving the needs of the Customers
- Creating good working environment for our employees
- Providing distinctively superior value to the global market
- Always serving best Quality Products to customer

Design & Development

In- house facilities for design using latest designing softwares result in fast development & delivery quality Industrial and Engineering Fasteners.

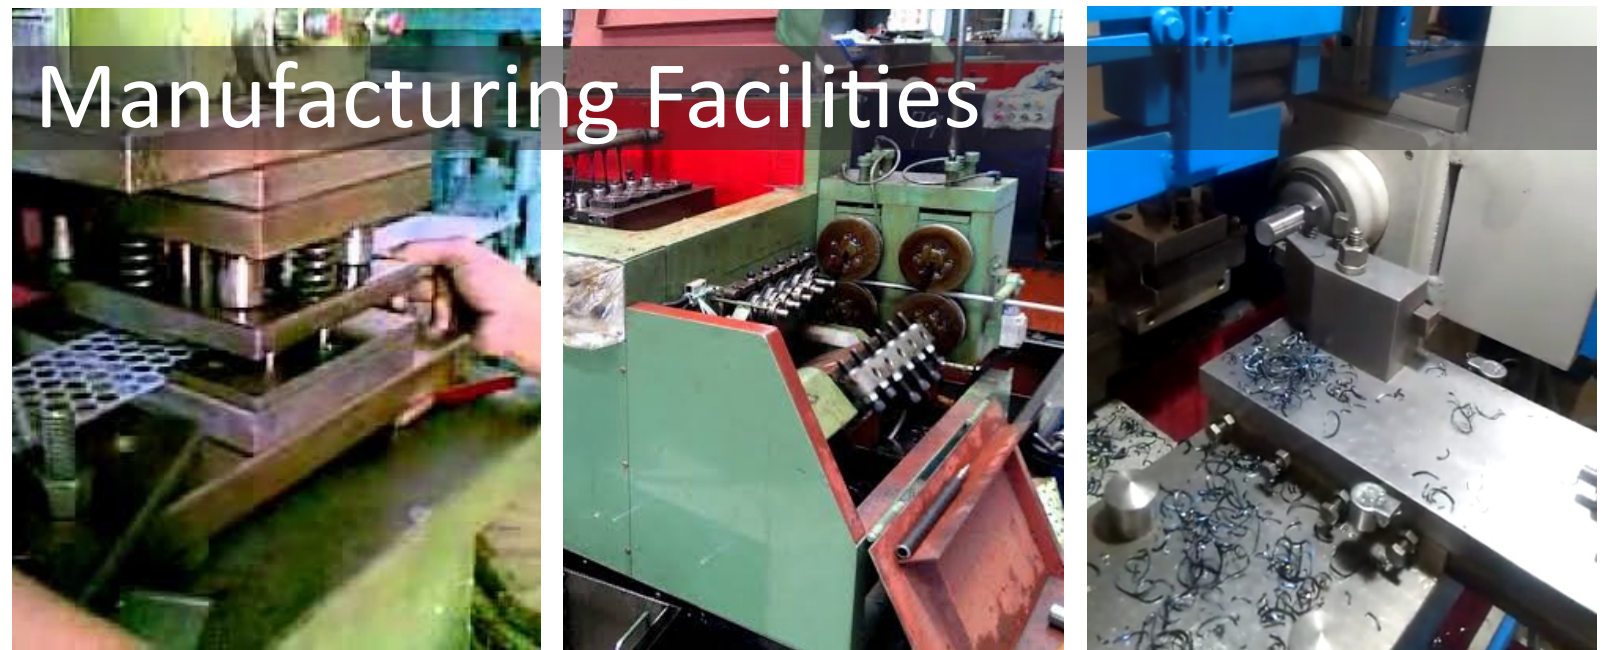

Our tool room designs and develops Dies, Fixtures and Special Purpose Machine Tools in-house which helps to reduce product cost and maintain better quality product.

Manufacturing Facilities

As a manufacturing company, over the years we have many capacities, built up technologies and invested in equipments which helps to become a " One Stop Shop for Industrial and Engineering Fasteners ".

- Cold Forging Facility
- Hot Forging Facility
- Bar Drawing Facility
- Heat Treatment Facility
 - Carburising
 - Hardening
 - Tampering
 - Annealing
- Induction Hardening
- Machining Facility
 - CNC / VMC Turning Centers
 - SPM's / Turning Block
- Surface Treatment
 - Phosphating
 - Auto Black
 - Zinc Electro - Plating
 - Powder Coating
- Tool Room
- Testing Facility
 - Chemical
 - Physical
 - Structural Analysis
- Metallurgical Laboratory

We have in house facility for plating like :
Hot dip Galvanize , Cadmium, Electro - Galvanize -Golden/Zinc/Green plated,
Mechanical Galvanize , Lead plating , Copper plating, Black ETC

Our Competitive Products Nuts

Nuts

Nuts

Diameters:

2MM to 100MM or 3/16" to 4"

Range of Nuts:

- Cage Square Nuts
- Castle Hex Nuts
 - Thick Castle Nuts
 - Thin Castle Nuts
- Collar Nuts
- Crimp Nuts
 - Flange Crimp Nuts Two Side (Hot Forge)
 - Flange Crimp Nuts Three Side
 - Turned Crimp
